

CHEMISTRY DEPARTMENT

Chem 315 (Honors Organic Chemistry)

Fall 2014

Important Registration Information

Admission to Honors Organic Chemistry (Fall 2014) is restricted to the following students:

- Students who received an A in both semesters of General Chemistry (159 and 160 **OR** 161 and 162 **OR** 163 and 164).
- Students who received an AP5 (AP credit for both General Chemistry I and II)
- Students who received an AP4 (AP credit for General Chemistry I) and received an A in General Chemistry II.

Students who are interested in taking CHE315 in the fall should register for Organic Chemistry CHE307 and apply for admission to CHE315 via the following link, as soon as their spring grades are available:

<http://chem.rutgers.edu/admission-application-honors-organic-chemistry>

Invitations to register for CHE315 will be sent on Monday, May 19th to students who meet the criteria outlined above and have filled out the application (make sure you include an email address that you check routinely). Accepted students will be notified via email, and enrollment will be based on a first-come, first-served basis. Special permission numbers will not be issued to add CHE315 – students who accept the invitation will be registered directly by Ms. Nelson, and this registration will be confirmed by email. Depending on the number of applications received, it may take a lengthy period of time for students to be registered. Unfortunately, we are unable to accommodate every student who would like to enroll in Honors Organic Chemistry.
